

This image shows a vertical strip of a document page. The right edge is a dark, textured binding. The main area is a light, off-white surface with a fine, vertical texture, possibly from the paper or the scanning process. There are some small, dark specks and faint vertical lines across the surface.

THE WEEK'S NEWS

Wednesday, Sept. 4.

Harvard observes annual take fine observations of the total eclipse of the moon. New York state troops in great demand for the cap races. Perry steamer reached Holstenburg July 27. New York state troops in great demand for the cap races. Perry steamer reached Holstenburg July 27.

Syndicate expected to keep treasury reserve good until gold exports cease. Burglars broke into two banks at Oakland, Me., but failed to get into the safes.

The port's communication regarding New American organization said satisfactory to England. England ready to recognize Brazil's claim to Trinidad.

Canadian frontier reported to have selected several Newfoundland fishing schooners. Death of Police Captain Michael Merkle of division 11, Boston. Miss Minnie Hutchinson of Bridgewater, Mass., seriously injured by a horse.

Impressed as a spy by the Spanish in Cuba. Women's Relief corps to convene at Louisville, Sept. 15. Opening of the Bay State fair at Worcester. Grange parade at the Maine state fair at Lewiston.

Vermont state fair opened at Burlington. Opening of the New Hampshire veterans' encampment at The Ways. French subjects in French Guiana liable to revolt. Mayor Speer of Williams, Ill., indicted for abetting a riot.

Hon. James White, treasurer of Williams college, dead. American and British sailors landed one another in Monterey. Amnesia and land distributions will accompany Italy's celebration. Federal court at Seattle, Wash., decided against the receivers of the Northern Pacific railroad company.

Fire destroyed the oil clothing factory of L. D. Lathrop at Worcester, Mass. Police arrested Michael Merrick of division 11, Boston, died of heart failure. He was born in Rossmore, Ire., 53 years ago.

Five men suffocated by gas at Providence. General Alfaro received with great enthusiasm upon entering Quito, Ecuador, with his victorious army. New consolidated company will control the gas business of Essex county, New Jersey.

Grand army day at the camp of the New Hampshire veterans at Concord. Death of William Fry, senior inspector of Boston's building department. Fall river (Mass.) weavers decided to demand an increase in wages.

Death of Charles W. Glidden, a prominent Lynn (Mass.) resident. Fire in East Boston freight sheds caused \$100,000 loss. No clove discovered in the Cambridge (Mass.) postoffice robbery.

China immigrants threatened with deportation. Russia has no faith in New York. No standard silver dollars coined in August. New Hampshire pharmacists in session at Lebanon.

Ediphe photographed at Lick Observatory, Cal. Yale graduate in Seattle, Wash., sent warships to enforce the treaty with Morocco. Chilli settled by concessions the boundary disputes with Argentina.

Electric gasoline, a new motive power for small craft, failure. Henry M. Stanley, M. P., sailed from Liverpool for New York. Gubans will sail Spain for a new constitution similar to that of Cuba.

Negroes of Centralia, Ill., refused to be assigned to separate schools. Thirty-six vessels wrecked and crews drowned during a recent storm at Kishinev, Japan. Friend of Lenin, the murdered bicyclist, says Turkish justice is very slow to act.

Bookkeeping (Mass.) Nationalists refuse to allow bicycle road races in the streets of that town. Three New York sailors kept \$300 each for violating the cruise law. Frank McFadden said to have made an unsuccessful attempt to kill his wife at Boston.

Japan, having subdued the Philippines, has turned to the Philippines and makes Spain apprehensive.

Friday, Sept. 6.

Bomb thrower arrested while attempting to blow up Rothschild's bank, Paris. Treasury gold reserve below the \$100,000 mark. Bookkeeper Louis A. Lee of the Hampshire (Mass.) National bank arrested for embezzlement.

Rev. Robert Fulton, S. J., ex-president of Boston college died in California. New Hampshire State Law and Order league sued for \$10,000 by a prosecuting agent.

London Lancet denies rumors that the Duke of Devonshire's troops perished in the flames in a stable fire at Plymouth, Pa. President Cleveland will press a button at Gray's exhibition, Mass., to start Atlanta's machinery.

C. H. Morse of Galesburg, Mass., elected president of International Association of Road and Motor inspectors. British parliament proposed. Western crops promise well. Keene, N. H., is to have an electric railway. France will spend \$100,000 on the Madagascar-Bermuda line.

Yale may row either Cambridge or Oxford next season. France and Russia will insist that Japan evacuate Liao-Tung Peninsula. Trades union advocates Cardillo, Eng. voted to abolish the house of commons. Choctaw Indians urged to accept a change in the form of land tenure.

Tax rate in Dedham, Mass., lower this year than it has been in the last quarter of a century. Plymouth society of Plymouth, Mass., erected a statue on the site of the star's home in England. Frank McKean arrested on complaint of shooting his wife at Boston. The district clerk thinks close commercial relations between Mexico and the United States will be arranged easily.

William Hyde, a machinist while bicycle riding, Southport, Conn., collided with a buggy. The pole of the carriage, penetrated Hyde's neck, causing instant death.

Saturday, Sept. 7.

William Henry Hurlbert, the well-known journalist, died in Italy. Link-eater (Mass.) mill strikes vote to return to work at the old wages. Eight of Bay State to be presented to the Shurtliff school. Boston. Henry R. Warner of Stonington killed himself at Providence.

At the fifth annual meeting of the New Jersey Rifle association the military command of the United States was won by Sergeant Boyle of the New York team, with a score of 65. An electric locomotive of the Baltimore and Ohio railroad attained a speed of 61 miles an hour in the Baltimore yards.

Pugilists Walcott and O'Brien held at Boston for the grand jury. Hungary's crop report shows good quantity but poor quality. Turkish officials declare there is no danger of famine in Armenia. General Gossage will leave England to command the troops in Macedonia.

England will devote herself to developing her African possessions. Daniel McAnally committed suicide at the house of correction at Westchester, Mass. Albany Packing company files at Jersey City for violating the oleomargarine law. New York surface paper company will substitute the trolley for the cable system.

Twenty-three of those who participated in the Kentucky massacre convicted. Japanese poisoned in a Chinese restaurant in San Francisco. Nine hundred nihilists, known or suspected, arrested by Russian police.

A NEW WAY TO PURIFY WATER.

Chemicals Said to Be Superior to Either Boiling or Filtering.

According to Dr. Dupont, a physician of Paris, writing in Les Annales d'Hygiene Publique, a new and effective method of purifying water by chemical action has been discovered.

Dr. Dupont notes that hitherto the methods of purifying drinking water have been by filtering and by the action of heat.

Filtration is the oldest and least effective method. Even filtration through porous porcelain, the most effective substance known, cannot always be trusted.

Especially after the experience has been long in use. Dr. Dupont does not assert that boiling fails to destroy noxious germs, but he says that it often leaves in the water a taste which is not pleasant.

He says that it often leaves in the water a taste which is not pleasant. He says that it often leaves in the water a taste which is not pleasant.

He says that it often leaves in the water a taste which is not pleasant. He says that it often leaves in the water a taste which is not pleasant.

He says that it often leaves in the water a taste which is not pleasant. He says that it often leaves in the water a taste which is not pleasant.

He says that it often leaves in the water a taste which is not pleasant. He says that it often leaves in the water a taste which is not pleasant.

He says that it often leaves in the water a taste which is not pleasant. He says that it often leaves in the water a taste which is not pleasant.
